10. **Discussion Items:**
  10.1 **Director’s Report:**
Monthly and year-to-date usage of the Library by patrons in all measurable categories was discussed.

Library Director Lisa Paulo reported that she thanked staff members for their part in bringing computers and materials up to the main level for patron use while the elevator refurbishment is taking place. Those staff members are IT Librarian Joe Agolia and assistant Chris Buchman who moved eight computers, two printers and a scanner to the Quiet Study Room and Reference Librarians Laura Flanagan and Ann Garnett, aide Kristen Sweeney and assistant Chris Buchman who moved a portion of the audio-visual collection of audio books, movies and music CD’s onto display shelves near the Circulation Department. The process took over a week to complete.

Trustee D’Antonio moved approval for Director Paulo to send a thank you letter to staff members Joe Agolia, Laura Flanagan, Ann Garnett, Kristen Sweeney and Chris Buchman for their part in bringing computers and materials up to the main level, in being creative in placement of these items and for the swift action they took to complete the job; Trustee Weinrich seconded and the motion was approved unanimously.

Director Paulo thanked Trustees Weinrich and D’Antonio and Reference Librarian Ann Garnett for their assistance in working on the Library’s portion of the Village’s annual report and thanked Trustee Colahan for his final review and editing of the report.

Director Paulo reported on the final figures of attendees at the summer reading club – in the Children’s Department there were 417 pre-school and school age children and 65 “tweens and teens” in the Young Adult Department.

Trustee Nouryan moved approval for the Young Adult Department to host a Halloween costume party for up to 50 “tweens and teens” on Friday, October 28, 2016; Trustee Murphy seconded and the motion was approved unanimously.

Director Paulo reported that the air conditioning went out on the main level Thursday, July 28, 2016 and was not repaired by Inter-County Mechanical (ICM) until Monday, August 1, 2016. The Library closed early that Saturday due to uncomfortable conditions. In addition, last Monday ICM came to the Library to replace a starter on the second floor unit, which has not been working for many weeks. While doing this the compressor started failing and then blew. Director Paulo contacted Village Administrator Suozzi for assistance. On August 3, 2016, at Mr. Suozzi’s request, two Village engineering contractors from Lizardos
Mechanical & Electrical Engineering went through the entire HVAC system at the Library. The Village is looking into replacing this old system. Director Paulo reported that the little girl’s restroom toilet has been repaired and is operational.
